

ties of daily living: eating, dressing, bathing, toileting, grooming, transferring in and out of bed/chair or walking. Our personal care aides will assist with ambulation, transfer and position, toileting, catheter care, medication reminders and skin care.

SKILLED NURSING

The Registered Nurse performs a comprehensive nursing assessment, develops a plan of care and coordinates care with the physician and other team members. The nurse performs nursing procedures and assists patients and care givers to become independent in care by educating them in skilled nursing services which include wound care,

IV therapy, medication management, pain and symptom management, education of all disease processes and instruction in the care of the patient.

CERTIFIED NURSING AIDES

A CNA works under the direction of a registered nurse. A CNA is certified by the state of Virginia after completing a training program and passing a state certification test. A CNA is trained to take vital signs and then communicate finding with the patient's Nurse. Part of the CNAs duties is to assist patients with meal preparation for special diets, all personal care activities such as bathing and grooming, and exercise.

OUR MISSION

The Agency's mission is to provide professional and paraprofessional services to clients in their homes assisting them to achieve the highest level of potential in their day-to-day self-care activities.

We are committed to providing high quality, multidisciplinary care by professionals who recognize the need for comprehensive assessment of needs from both the client and professional's point of view.

HEALTHCARE SERVICES, LLC

OUR VISION

Our vision is partly to provide extraordinary quality homecare to our clients through our highly trained dedicated homecare professionals and to establish an agency that provides refreshing care to our clients in their homes by building a sense of assured, trusted homecare services.

OUR GOAL

Our Goal is to meet the patient's medical needs while promoting and supporting their optimum level of independence in the nurturing environment of their home. We strive to minimize the impact of the patient's condition on the family while respecting their role in the care of the patient.

OUR SERVICES

At FAMA Healthcare we specialize in pediatric and geriatric home care services. We take pride in aiding the medically fragile; we not only assist, but we rehabilitate technology-supported children and adults. Helping them thrive not only at home, which creates a peaceful environment for the family but also in society. Our services are used in a variety of settings: Private Homes, Nursing Homes, Group Homes, Retirement Homes, Assisted Living Homes and Schools.

FAMA Healthcare provides our patients and their families with a vast variety of high quality, compassionate pediatric and geriatric services that include:

- IV Therapy
- TPN
- Tracheotomy Care
- Neoplastic Diseases
- Feeding Disorders (Cleft Palate, NGT,GT,JT)
- Neuromuscular Disorders
- Gastrointestinal Disorders
- Endocrine Disorders
- Infusion Therapy
- Respiratory Therapy
- On Home Asthma Management

Linking technology to home health care is a strategic way of facing a variety of conditions. At FAMA our passion to care has made us a reliable and compassionate provider to our clients. Our singular goal has been to deliver high-quality healthcare to our community.

- Spinal Cord Injuries
- Companionship
- Light housekeeping
- Medication and Appointment Reminder
- Escort to Religious Services
- Ventilator Management

PEDIATRIC CARE

At FAMA Healthcare Services, Pediatric home care is a vital component of what we do. A majority of our patients are children that we have taken care of from premature infants through adolescents.

We are the leading provider of purely pediatric home care and offer a complete suite of pediatric and neonatal services including skilled nursing, respite care, personal care, home infusion and much more...

We partner with some of the best suppliers of durable home medical equipment to provide you with excellent medical equipment for your child.

If you are overwhelmed with taking care of your child at home, contact us, and we we'll take care of everything, so you can have time to spend on other things. Our integrated team handles every detail in caring for patients and families, from paperwork to in-home services, to responding to a middle-of-the-night emergency call for medication.

Finally, we work together with other healthcare professionals, payers (Medicaid and/or insurance) and family caregivers to ensure continuity of care for each child we serve.

PERSONAL CARE

Our care providers (HHA,PCA & CNAs) under the direction of a Registered Nurse, provide personal assistance, standby assistance, supervision or cures for persons with the inabilities of providing activi-
